DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

- a. A section heading entitled Brief Description of the Several Views of the Drawings is required. See MPEP § 608.01(f). A reference to and brief description of the drawing(s) as set forth in 37 CFR 1.
- b. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings contain text descriptions of their contents. Applicant should remove this text from the drawings. The appropriate place for this text is in the section entitled Brief Description of the Several Views of the Drawings as required above. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

2. Claims 1-9 are allowed. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art (DE 880588 05-1953, English translation) neither discloses nor fairly suggests setting a mean gas superficial velocity of from 1 to 20 cm/sec. Brendlein exemplifies (Translation, page 2, line 10- page 5, line 18) a process for producing methyl formate in which the mean gas superficial velocity is calculated 0.21 cm/sec (See instant specification at page 5, lines 42-45). This value is from 5 to 1000 times lower than that instantly claimed. One of ordinary skill in the art would not, based upon the teaching of Brendlein, have employed such high mean gas superficial velocities with any reasonable expectation for success.

Conclusion

3. Claims 1-9 are pending. Claims 1-9 are allowed.
